

Medication comparison

Snapshot created 2026-09-03T02:37:45.912Z

Read each topic across the medication columns. Highlights describe differences in the loaded source details, not which medication is better.

This report is for discussion with a pharmacist or clinician. It does not recommend a treatment, establish medication safety, or check all interactions. Do not start, stop, or change a medication based on this report.

Selected facts for 2 medications. Excerpts are shortened source text. Open full selected source details in this HTML file to read the complete loaded text. Printed pages contain excerpts and source links.		
Comparison topic	Metformin Hydrochloride	Empagliflozin
	Brand names: JARDIANCE	
Possible side effects Each FDA label's adverse-reaction section. Different wording does not tell you which medication is safer. Different source details The loaded text, values, or source metadata differ. This does not mean one medication is better or safer.	Public data SOURCE EXCERPT, NOT A CLINICAL SUMMARY 6 ADVERSE REACTIONS The following adverse reactions are also discussed elsewhere in the labeling: Lactic Acidosis [see Boxed Warning and Warnings and Precautions (5.1)] Vitamin B 12 Deficiency [see Warnings and Precautions (5.2)] Hypoglycemia [see Warnings and Precautions (5.3)] For metformin hydrochloride tablets, the most common adverse reactions (>5.0%) are diarrhea, nausea/vomiting, flatulence, asthenia, indigestion, abdominal discomfort, and headache. (6.1) To report... Excerpt only. Additional text or records are omitted from the printed report. Read the source for the full information. Sources and dates FDA drug label [https://api.fda.gov/drug/label.json?search=set_id%3A%22073cf6d9-7142-4d8b-898e-174c62a1f76f%22] Retrieved Sep 3, 2026. Source date Aug 21, 2026 FDA label source text, not individualized medical advice or a complete pairwise interaction check. Source notices - openfda-ndc: Showing one matching finished-product ingredient group. Other formulations may exist; this does not imply interchangeability. - openfda-label: Selected the latest matching label among the first 12 source SPL sets. Other product labels may differ. - nadac: NADAC returned the latest 100 rows for a package batch. Older package records may be omitted. - nadac: Benchmarks cover up to 100 of 263 package NDCs, not every product variant.	Public data SOURCE EXCERPT, NOT A CLINICAL SUMMARY 6 ADVERSE REACTIONS The following important adverse reactions are described below and elsewhere in the labeling: Diabetic Ketoacidosis in Patients with Type 1 Diabetes Mellitus and Other Ketoacidosis [see Warnings and Precautions (5.1)] Volume Depletion [see Warnings and Precautions (5.2)] Genitourinary Infections, including Urosepsis, Pyelonephritis, Necrotizing Fasciitis of the Perineum (Fournier's Gangrene), and Genital Mycotic Infections [see Warnings and Precautions... Excerpt only. Additional text or records are omitted from the printed report. Read the source for the full information. Prices and public benchmarks Check the product, quantity, date, and price type. NADAC is a pharmacy acquisition benchmark, not a patient price. Different source details The loaded text, values, or source metadata differ. This does not mean one medication is better or safer. Compare only like-for-like products and quantities. Public benchmarks never become purchasable cart offers.	Public data SOURCE EXCERPT, NOT A CLINICAL SUMMARY Public acquisition benchmark NADAC estimates pharmacy acquisition cost. This is not a retail cash price, a patient copay, or evidence of pharmacy availability. First of 16 source records. Not a lowest-price selection. \$0.69, \$0.02313 per unit 30 EA Basis: prescription. NDC: 42385094911 Estimated pharmacy acquisition benchmark; this is not the price a patient pays. Price date: Aug 19, 2026 <u>CMS Medicaid NADAC [https://data.medicaid.gov/dataset/fbb83258-11c7-47f5-8b18-5f8e79f7e704]</u> Retrieved Sep 3, 2026 Dataset: 2026 NADAC is a pharmacy acquisition-cost benchmark, not a retail cash price, insured copay, or negotiated patient price. Excerpt only. Additional text or records are omitted from the printed report. Read the source for the full information.
